FEATURES

Single piece "wrap-around" rubrails include integral corners and caps for added protection. The bumper design offers increased stability and a new slip-joint under the bumper corner ABS shrouds.

Integrated rear air-conditioning locates unit within the rear bulkhead. This maximizes passenger compartment headroom.

The rear emergency door design has an increased signage area and a 40% increase in upper glass area. Galvanized tubular construction for maximized corrosion resistance and rigidity. Lower window standard on all models.

Optional entrance door with transition panel provides added visibility.

Optional equipment cages are available in a variety of configurations.
